

AmeriSeed®

CATALOG

2023

AmeriSeed®

AmeriSeed was formed in 1982 and is an International specialized plant genetics, breeding and production company supplying flower and vegetable seeds to grower markets worldwide.

Varieties are specifically bred to withstand extreme heat, humidity and disease. American marigold breeding ranges from dwarf and semi dwarf varieties to tall, cut flower types.

High Quality Flower Seed For You

More About Us

AmeriSeed also breeds award winning vinca, zinnia, torenia, petunia and more varieties with extreme heat tolerance.

Products are ideally suited to pot, bedding, landscape and cut flower production. Extensive research trials provide our customers with technical growing information. Seed is cleaned, graded and tested for germination and vigor before being packed and exported.

Bright Sparks

Celosia Plumosa

The Bright Sparks series stands out from the competition with it's large plumes(3-4 inches tall and 3 inches wide), very well branched habit and great heat tolerance. The extra branching results in more flowers per plant and the bloom size on the secondary flowers also matches the initial flower. These blooms are also less prone to colour fade than competing varieties, leading overall to a superb and long lasting garden display.

Cosmos Apollo

Cosmos bipinnatus

Apollo is a brand new variety which brings great benefits for growers, retailers and consumers alike. The naturally dwarf habit and shorter internodes make for a better display of colour and better shelf life and also make it easier grow and transport. Meanwhile the larger flowers and better petal quality leads to much greater impact in containers or the garden. Apollo Lovesong is a great new addition to the Apollo series. Sharing the same dwarf habit, excellent branching and improved flower quality as the other Apollo colours, Lovesong is a delightful blend of Pink Picotee, White and Pink. Lovesong excels in the garden, with a very long flowering period and unrivalled disease & heat tolerance.

General Information

Seed Form	Natural
Seed count	160/g
